10 Scroll Saw Sign Making Kit

With Dremel's Scroll Saw Sign Making Kit, you can get your name in a lot of places. Doors, signs, walls, desks - even mailboxes. This easy-to-use kit makes a variety of signs and plaques on all kinds of wood. Walnut, mahogany, cherry and oak. Using different tools can provide an even wider variety of styles. Dremel Scroll Saws can cut out or cut through letters. The Moto-Tool® with a 230 Router Attachment will do the engraving, and the Moto-Flex® Tool is best for sculptured and relief carved letters. The kit includes three styles of letter and number stencils. Old English, Script and Block. Best yet, beautiful signs can be laid out quickly, because no measuring is needed between each letter. Included in the kit are simple instructions, stencils, an acetate sheet and carbon paper.
.....**$17.35 ea.**

PLANS/PATTERNS AND BOOKS

14930 175+ Uses for the Dremel Moto-Tool and Cordless Freewheeler

Our latest 96 page manual contains a variety of everyday do-it-yourself projects. Includes dozens of "quick-fixes" with

art of carving fish out of wood. Carving fish offers the widest possible range for artistic originality and expression for the woodcarver. It is a new hobby in the world of decorative wildlife carving, one that is growing rapidly in popularity.

Decorative Fish Carving, by world-champion carver Rick Beyer, is an excellent guide to the craft for those just starting out and is and an inspiration to all woodcarvers. Beyer explains which tools and wood types to use for specific pieces and provides explicit instructions for carving fish, paying careful attention to fish anatomy, fin movement, and attack positions. To aid in detailing, the book includes numerous close-up photographs, along with detailed procedures for achieving special color effects with paint. In addition, Beyer covers the important concepts of design and balance and tells how to mount the completed work. Award-winning

95201 Scroll Saw Handbook With Patterns

See just how versatile and enjoyable your scroll saw can be - a "wonder tool" that will make all your woodworking projects simpler, more craftsmanlike, more beautiful than you ever thought possible. And you can put your work to use in mantel decorations, window or tree ornaments, paperweights, key chains, miniatures, jewelry, etc.
